

I would like to make a positive comment on KLVJ-100.1 FM (Julian, California) which broadcasts K-LOVE radio. I have heard of the proposed LPFM and how it could impact my ability to receive my local station. KLVJ provides positive Christian music and news. It covers National as well as local news. This news service publishes important information in my area that is extremely useful. I have heard of numerous comments from other residents in the San Diego area which listen to this station exclusively. I would ask that this station not be taken off of the air at all cost. Thank You, Scott Greathouse
